Initial Set up of Student Laptop

Your new student laptop will go through a set up process before it can be used. This tutorial will guide you through the steps.

After the laptop is powered on, you’ll be greeted by this screen. Be aware that it may take about 5 minutes to advance to the next portion.

Select the Region where your laptop is located.

For our purposes you will select United States and click “Yes.”

Verify you have the correct layout/region and click “Yes” once more.

When asked for a second keyboard layout, click “Skip.”

For technical assistance please call 815-577-4344
Monday - Friday, 7am to 5pm
This is the WiFi selection page. If you are at a school building, select Public WiFi. If you are setting up your laptop from home, please select your home WiFi. Check the box that states "Connect automatically." Click 'Next.'

On this screen you will enter your “studentID@psd202.org”

Click “Next.”

You will now be at our Organization log in page.

Once again, enter your “studentID@psd202.org” and your password.

Hit “Sign In.”

At this point, the laptop will finish setting up on it’s own. This process might take about 15-20 minutes.

Once finished, your laptop is ready for use.
